PRODUCT & APPLICATION GUIDE

Bring out the character of wood.

The OLI Nature range supplied by PEKERWOOD offers oil and hardwax-oil finishes for furniture, floors, stairs, worktops and exterior wood. Choose the finish around the surface, the desired appearance and the demands of everyday use.

Product	Application and finish
HS Hard Wax Oil	Professional hardwax oil for floors, parquet and stairs. Combines wood penetration with a protective surface layer.
HS Professional Wood Oil	High-solids oil without wax for floors, stairs and furniture. Retains a natural wood texture and surface feel.
Hard Wax Oil	Oil and wax protection for furniture, worktops, stairs, doors and kitchen fronts.
Deep-Penetrating Wood Oil	For furniture, joinery and suitable wood flooring, including new surfaces and renovation work.
Light Furniture Oil	For light-coloured wooden furniture where a freshly sanded appearance and reduced darkening are desired.

We would be happy to discuss which finish could suit your product range or projects.

WORKTOPS, COLOUR AND EXTERIOR WOOD

For the way wood is used.

Product	Application and finish
Worktop Oil	Solvent-free oil for tables, kitchen worktops and bathroom furniture. A single application penetrates the wood and creates a matt, water-repellent surface.
Colour Oil — Midnight Black	A black oil with UV-resistant pigments for furniture, tables, worktops and stairs. Colours and protects in one application. A separate hardener is required when used as a two-component system.
Yacht & Teak Oil	Exterior wood oil with UV protection for terraces, garden furniture, outdoor structures and suitable yacht or boat timber.
Linseed Oil Finish	A traditional linseed-oil finish for interior and exterior wood, joinery and restoration. Penetrates the wood and enhances its natural grain.

Support from PEKERWOOD

Tell us about the surface and the finish you would like to achieve. We can discuss the product choice and prepare an individual quotation for larger or regular quantities.

Application, preparation and curing requirements vary by product. Consult the current technical data sheet and safety information for the selected system before use.
